As technology continues to change the modern workplace, the role of today’s office professional will continue to evolve. Office professionals need to excel in written and oral communication, interpersonal skills, organizational and managerial ability, accounting, computers and general business knowledge. Today’s office needs personnel who are adaptable problem-solvers — ready to take on the challenges of new and ever-changing technologies.

Program Objective

This program is designed to provide entry-level employment options in the fields of Business and/or Accounting.

Students will obtain a wide background in both Business Administration procedures and Accounting concepts for careers in data entry, computer operations, computerized accounting, bookkeeping, and additional office-related positions, such as payroll and office management.

Employment Outlook

According to the Bureau of Labor Statistics, employment in the Business and Accounting fields are expected to increase by 10% to 18%, about as fast as average, or better than average, through 2020, depending on your profession of choice.*

*These national statistics are not geographically assigned. For more information, please see IBMC’s Career Services Department.
